

# PreBiotic PLUS

**PreBiotic Plus** is the first prebiotic supplement that can support and selectively feed keystone bacterial species. **PreBiotic Plus** contains oligosaccharides and organic kiwifruit powder. Oligosaccharides are medium-chain carbohydrates that aren't digested or absorbed in the human digestive tract but feed the commensal bacteria living in your gut, supporting immune function, gut microbial diversity, and intestinal barrier health.\*\*

## Key Benefits & Features

- Supports the gut microbiome's microbial diversity
- Supports selective feeding of beneficial keystone bacterial species
- Supports immune function
- Maintains healthy intestinal barrier function
- Reinforces the health-supportive microbial changes created by SporeBiotic Plus
- Proprietary blend of natural ingredients

## The Precise Probiotic

Prebiotics are complex dietary fibers that feed the bacteria living in the gut microbiome. Complex fibers feed health-supportive bacteria yet can also feed undesirable microorganisms and bacteria you'd rather not support. **PreBiotic Plus** was explicitly designed to support the keystone bacterial strains without feeding the imbalanced microbial-producing microflora in the gut.

Most prebiotics on the market are NOT selective. **PreBiotic Plus** contains oligosaccharides and kiwifruit powder. Oligosaccharides are non-digestible medium-chain carbohydrates that selectively feed bacterial species that produce valuable short-chain fatty acid (SCFAs) metabolites, including butyrate. SCFAs support many diverse physiological functions necessary for optimal health and well-being.

**PreBiotic Plus'** oligosaccharides may support a significant increase in keystone species, including Akkermansia muciniphila, Faecalibacterium prausnitzii, and Bifidobacteria—all of which are vital for supporting healthy metabolism, body composition, immune function, and intestinal barrier function.\*\*

## Triple R Protocol

RECONDITION | REINFORCE | REBUILD

### STEP ONE: RECONDITION

Reconditioning the gut optimizes the environment so that it favors your beneficial gut bacteria. **SporeBiotic Plus** can optimize this environment by changing the acidity in the intestines, limiting the presence of harmful bacteria, and producing metabolites that feed beneficial bacteria.

### STEP TWO: REINFORCE

The gut microbiome is a very dynamic environment so it's important to reinforce the beneficial changes from SporeBiotic Plus by feeding friendly keystone bacteria. **PreBiotic Plus** contains short-chain carbohydrates, known as oligosaccharides, that have been shown to selectively feed beneficial bacteria and enhance gut restoration.

### STEP THREE: REBUILD

In a dysbiotic gut, the protective mucosal layer breaks down and allows toxins to tear through the intestinal lining and into the blood stream. **Mucosa Protect** contains key amino acids to help your body naturally rebuild your protective mucus layer and immune cells to help fend off any unwanted toxins during the rebuilding process.

#### Capsules

### SUPPLEMENT FACTS

Serving Size 6 capsules  
Servings Per Container 30

Amount Per Serving	% Daily Value*	
Calories	20	
Total Carbohydrate	4 g	1%
Dietary Fiber	1 g	4%
Total Sugars	1 g	<1%
Proprietary Functional Fiber Blend	4 g	
Galactooligosaccharides (Bimuno®)		
Organic gold and green kiwifruit powder (Livaux® and ACTAZIN®)		
Organic Xylooligosaccharides (PreticX®)		

\* Percent Daily Values are based on a 2,000 calorie diet.  
† Daily values not established.

**OTHER INGREDIENTS:** Vegetable capsule (cellulose and water), cellulose, magnesium stearate, silicon dioxide.

**SUGGESTED USE:** Ages 3+: Start with 3 capsules daily with or without a meal for one week, then increase to 6 capsules daily with or without a meal as tolerated. Children under 3 years of age, please consult with your healthcare practitioner.

#### Powder

### SUPPLEMENT FACTS

Serving Size: 5 grams (1 scoop)  
Servings Per Container: 30

Amount Per Serving	% Daily Value*	
Calories	25	
Total Carbohydrate	5 g	2%
Dietary Fiber	1 g	4%
Total Sugars	1 g	<1%
Proprietary Functional Fiber Blend	4 g	†
Galactooligosaccharides (Bimuno®)		
Organic gold and green kiwifruit powder (Livaux® and ACTAZIN®)		
Organic Xylooligosaccharides (PreticX®)		

\* Percent Daily Values are based on a 2,000 calorie diet.  
† Daily values not established.

**OTHER INGREDIENTS:** Natural pineapple orange guava flavors, citric acid, stevia, silicon dioxide, rebaudioside M.

**SUGGESTED USE:** Ages 3+: Start with 1/2 scoop daily for 1 week, then increase to 1 scoop daily with or without food, or as directed by your healthcare practitioner. Mix powder with 16 oz or more of cold water, or blend into your favorite smoothie. Children under 3 years of age, please consult with your healthcare practitioner.

**POWDER AND CAPSULE FORMS CONTAIN:** Milk. One or more ingredients derived from lactose from bovine milk.
