

SporeBiotic PRO

SporeBiotic PRO is one of the most recognized names in the probiotic industry. It is our flagship probiotic product—a pioneering and trend-setting all-spore formula designed to support gut microbiome reconditioning. **SporeBiotic PRO** is a 100% spore-based, broad-spectrum probiotic clinically tested to support and maintain gut microbial diversity, healthy levels of commensal gut bacterial species, and intestinal barrier function.

This unique blend of spore-based probiotic species is designed to maintain survivability, efficacy, and potency throughout the digestive process. Boasting a 3-year shelf-life, **SporeBiotic PRO** doesn't require refrigeration or a high colony-forming unit (CFU) count to be effective—unlike non-spore-forming strains, which are typically vulnerable to destruction at room temperature and in the digestive tract.**

Key Benefits & Features

- Supports gut microbial diversity**
- Supports healthy gut barrier and immune function**
- Maintains levels of key, health-supportive, commensal gut bacteria**
- Maintains healthy gut microbiome function**
- Unique spore-based *Bacillus* probiotic blend supports gut reconditioning**
- Designed to maintain efficacy, potency, and 99.99% survivability throughout the digestive process**
- Supports keystone bacterial species that produce valuable short-chain fatty acid (SCFAs) metabolites, including butyrate**
- Backed by multiple research studies and extensive clinical validation**
- 3-year shelf life**
- Stable at room temperature**

The Pioneering Spore-Based Probiotic

The gut microbiome is a dynamic ecosystem easily disrupted by environmental and lifestyle factors. When it is imbalanced-in a state of "dysbiosis"-localized digestive discomforts, gut health challenges, and body-wide issues may occur. An imbalanced microbial environment can negatively impact clients' daily lives. SporeBiotic PRO supports reconditioning an imbalanced microbial gut environment.

SporeBiotic PRO contains five *Bacillus* spore-forming bacterial strains. Spore-formers surround themselves with a protective coat, so they are naturally designed to navigate digestion with 99.99% survivability. They arrive in the gut, transition from spore to active form, and provide practical reconditioning support. SporeBiotic PRO can support increased microbial diversity, maintain healthy gut barrier and immune function, and support keystone bacterial species that produce valuable short-chain fatty acid (SCFAs) metabolites, including butyrate. SCFAs support many diverse physiological functions necessary for optimal health and well-being.

SporeBiotic PRO is the first, truly innovative, multi-spore-based probiotic. Supported by extensive clinical validation and developed to fill a massive therapeutic practice gap, SporeBiotic PRO is backed by over nine published studies, with multiple, ongoing studies.**

SUPPLEMENT FACTS

Serving Size 2 Capsules
Servings Per Container 30

Amount Per Serving	% Daily Value	
Proprietary Probiotic Blend	295 mg	†
	4 Billion CFU	
<i>Bacillus indicus</i> , HU36™		†
<i>Bacillus subtilis</i> , HU58™		†
<i>Bacillus coagulans</i> (SC-208)		†
<i>Bacillus licheniformis</i> (SL-307)		†
<i>Bacillus clausii</i> (SC-109)		†
† Daily values not established.		

OTHER INGREDIENTS: Cellulose, vegetable capsule (cellulose and water).

SUGGESTED USE: Ages 5+

Start with ½ or 1 capsule with a meal and increase using the following protocol:

Week 1 Take 1 capsule every other day

Week 2 Take 1 capsule daily

Week 3+ Take 2 capsules daily

Children under 5 years of age, please consult with your healthcare practitioner.

THE THREE FUNDAMENTAL ASPECTS OF GUT HEALTH INCLUDE ITS MICROBIAL POPULATION, PHYSICAL STRUCTURES, AND IMMUNE FUNCTION. A HEALTHY MICROBIOME RELIES UPON ALL THREE. GUT-SUPPORTING PRACTICES THAT ONLY ADDRESS ONE AREA TYPICALLY DON'T RESTORE A DYSFUNCTIONAL GUT. THE MICROBIOME LABS TOTAL GUT RESTORATION SYSTEM IS UNIQUELY DESIGNED TO SUPPORT GUT RESTORATION BY TARGETING ALL THREE FUNDAMENTAL ASPECTS OF GUT HEALTH.**
