

YEAST BUSTER PRO

Yeast Buster PRO is formulated to support healthy yeast and fungal balance in the body. Its active ingredients, undecylenic acid and bee propolis, provide targeted support for yeast maintenance. It can also be used to maintain the balance of other commensal fungi. Support from Yeast Buster PRO can maintain a healthy balance in the gut microbiome, producing a downstream effect of supporting a healthy balance of vaginal microflora and yeast.**

Key Benefits & Features

- Supports balanced yeast and fungi levels in the gut**
- Supports the gut microbiome's microbial balance**
- Maintains Candida levels already within a normal range**
- Supports a healthy balance of vaginal flora by maintaining balanced intestinal flora**

Balancing Yeast Through Digestive Support

Commensal fungi are commonly found within the gut and the body's other microbiomes. When a healthy balance is maintained, small numbers of commensal yeast and fungi support nutrient digestion and absorption.

However, yeast and fungal overgrowth can damage and breach the intestinal lining, spreading into the bloodstream and throughout the body. Yeast and fungi can then grow and "root," triggering a myriad of unwanted and uncomfortable health challenges.

This product is not intended to diagnose, treat, cure, or prevent any disease.

Research acknowledges a direct correlation between vaginal yeast overgrowth and simultaneous yeast and fungal overgrowth in the digestive tract. **Yeast Buster PRO** addresses yeast and fungi in the digestive tract and maintains Candida levels already within the normal range.

Providing targeted support to restore healthy yeast balance in the gut can subsequently support a healthy balance in other microbiomes where yeast and fungi thrive and tend to overgrow, including the vagina, mouth, and skin.**

Capsules

SUPPLEMENT FACTS

Serving Size 6 Softgels
Servings Per Container 30

Amount Per Serving	% Daily Value*	
Calories (energy)	25	
Total Fat	2.5 g	3%
Protein	<1 g	
Undecylenic acid	300 mg	†
Bee propolis 70% extract	300 mg	†

* Percent Daily Values are based on a 2,000 calorie diet.
† Daily values not established.

OTHER INGREDIENTS: Olive oil, bovine gelatin, glycerin, purified water, beeswax, sunflower lecithin.

BEE PROPOLIS IS A PLANT RESIN THAT BEES USE TO LINE THEIR HIVES.

SUGGESTED USE: Ages 8+
